7. Some of the contention with the acronyms MOGAI and GSM were that they were allegedly created with the intention of including pedophilia as a “sexual minority.” While I tried to find reliable sources that would prove this, I was only able to find these accusations on independent blogs. In any case, recognizing where inclusion is helpful in addressing injustice on the grounds of sexuality and gender and where specificity is helpful is important to effectively addressing it. Historically, the acronym LGBT represents coalitions and groups formed to address homophobia and transphobia and recognizing that history is important to discussions about gender and sexuality.

- “LGBT.” *Wikipedia*.

### lipstick lesbian
